

sinclair's decision to air a clearly partisan show while refusing to balance it by showing an opposing view, such as "Going Upriver", shows they cannot be trusted with our public airwaves. How dare they criticize a decorated soldier who defended his country when called to duty, when they have not served themselves? This is hypocrisy and cannot be tolerated. And to think they refused to air a reading of the names of fallen soldiers from this current war as they felt that would be too partisan? How do they get to make those decisions? Who defines partisan anyway? Big business or the people of this country? This is treason of the highest order and must be stopped. Thank you.
